

April 30, 2015

News Release by Amanda Douridas, Extension Educator, Agriculture and Natural Resources

Spring has Sprung! . . . (finally)

Enjoy the beautiful spring blooms while they last. But did you know that most of these early bloomers should be pruned right after their spring blossoming?

Well, let's do it right! Join experienced author Michael Epp as he explains spring pruning tips and demonstrates techniques you can use in your own yard. Join the Champaign County Master Gardener Volunteers and learn with us on May 13, 2015. Meet at 136 Long Bay Drive in Urbana from 6-8 pm. Naturally, we will be outdoors, so dress appropriately. This class/demonstration is free!

Don't think you can remember it all? Well, lucky you! Mike will also be selling copies of his book on home landscaping after the demonstration.
