Using Quicken for Farm Record Keeping

As we have moved into the new year, and tax season is quickly approaching, you might be looking to re-evaluate how you keep records for your farming operation. Maybe you have thought about using a software program like Quicken® but think it won't work for a farm business, or just would like to see how it works before making the commitment of purchasing. Champaign County Extension will be hosting a short series on using Quicken® for Farm Record Keeping on February 21, and 28, at the Champaign Community Center Auditorium from 6 to 8:30pm. Participants will learn about Quicken® using an OSU Computer Lab provided during the workshop with Quicken® software installed. Or, if you already are using Quicken® you are welcome to bring your own computer. A workshop manual/home reference will be provided. Registration is \$50.00 per farm business (Maximum 2 people per farm). Space is limited to 10 workstations.
